## Community Service Webinars Now Available!

### A Message from the Office of College & Career Readiness

MBA Executives, are you looking for a way to earn community service hours? tnAchieves is working to help you meet this requirement with virtual community service opportunities!

We understand that during this time, you may encounter obstacles finding in-person community service or job shadowing opportunities. tnAchieves has partnered with stakeholders across the state to provide one-hour webinars that will count as one hour of community service for the upcoming July 1 deadline! The webinars focus on subjects relating to careers, professional development and college success. This is a great opportunity to not only earn service hours, but to also gain exposure and insight to a variety of important topics.

You can [visit this page](#) to access the webinars. You will be required to individually log in to the tnAchieves website to view the webinars in order for your attendance to be recorded. You will earn one hour of community service for each session that you watch entirely.

**You MUST log into the tnAchieves' website to receive credit.**

Feel free to contact me if you have questions or concerns regarding service opportunities.

Regards,

Dr. Mary A. Beckworth-Belford  
College & Career Advisor
