

STAR STUDIO PHOTOGRAPHY

SENIOR PICTURE INFORMATION

Senior year is one of the most important times in a person's life. One of the first things you do for your senior year is having senior pictures made. Because of the coronavirus we were unable to attend your child's school to give them the information needed to go about getting their pictures booked this summer.

We have different backgrounds starting with the yearbook pose.. Scheduling for your yearbook pose ensures that your student will have everything needed to be in your school's yearbook. The casual backgrounds will be seen on our Facebook page. "Star Studio Inc" Our profile photo is a black and gold star.

COVID-19

We are very concerned with the hygiene and sanitation of our studio and the clothes we will be using. We will be following the Tennessee pledge guidelines for dealing with this virus this summer. There will be 6 ft social distancing and all employees will be required to wear mask. Anyone who is not having their picture taken will be required to wear a mask before entering our studio as well. Seniors may certainly wear a mask also, just be sure to remove them with enough time for lines on your face to go away before you have your picture made. We will be regularly wiping down high traffic areas like the front counter and doorknobs. We have also purchased a high intensity UV wand that we will be using on our caps and gowns, tuxes and drapes.

Limiting occupancy is also important during this time. Only the senior and one other person will be allowed in the studio at a time. I know this will be inconvenient for some but we want to ensure that your senior is in a safe environment.

Please don't wait till the last minute to schedule an appointment. Things will certainly be different this year from years past but it is very important that you make your appointment as soon as possible to have these done. We want schools to have 100% participation in their yearbooks.

If you have further questions please call the studio at 901-366-9200. We are excited to see you this summer and making your senior picture day the best experience you can have in your senior year!
